KILL the **HOUSING BILL**

SECURE HOMES FOR ALL

CONTROL RENTS

A council or housing association tenant?

The Housing Bill attacks social housing and legislates for social cleansing:

- Forced sale of 'high value' council homes – much of inner London is 'high value'!
- Council tenancies of two to five years only, with no right to pass on to children.
- Rent increases of up to 400% (pay-to-stay) for social housing tenants with household income over £30k, or £40k in London.
- More estate demolitions

A private renter or want to buy a house?

The Bill won't solve the high cost of housing and will lead to higher rents and house prices.

- The Tories rejected a rule that would force landlords to provide homes 'fit for human habitation'.
- Commercial landlords and speculators will control the housing market.
- 'Starter homes' for who? – you need to be earning £70,000 to get one in London.
- No hope of social housing.

Opposition is growing fast to the Housing Bill. Kill the Housing Bill campaigners are on the streets, on estates, taking action, lobbying MPs and Lords, and pushing Councils to join the Campaign and resist the Bill. Get in touch and get involved
